Dear All,

We are pleased to inform you about the latest news on IEC 61850, IEC 61400-25 and other standards like CIM, IEC 60870-5-101/104, and MMS.

The value of these standards is appreciated in almost all domains of the electric power delivery system ... and now also outside the electrical world: the gas industry is showing a healthy interest in IEC 61850, MMS,...

1. Standardization

First CDV of IEC 61850 Edition2:

IEC 61850-6 (Configuration description language for communication in electrical substations) has been published for ballot until 2008-07-11

Further parts of edition 2 will be available soon.

2. Most crucial challenge to date with IEC 61850

more education for vendors and users required ... as stated by Vattenfall: <http://www.nettedautomation.com/download/Vattenfall_2007-09.pdf>

and reported by many other experts!

3. New dates and locations for seminars and training on IEC 61850 offered by NettedAutomation
